

General Surgery

Berkeley Outpatient Center

Overview

General Surgery Services is one of several specialty services available at the Berkeley Outpatient Center. Our Surgeons work with referring providers to ensure patients receive the best care possible.

Conditions treated

- Lymph Nodes
- Masses
- Melanoma
- Neck Masses
- Oral Lesions
- Skin Cancers
- Soft Tissue Masses

When to see a General Surgeon

Patients who require surgical interventions covering a wide range of body areas should see a General Surgery physician. This includes procedures involving the:

- Abdomen (when surgical condition is discovered via ultrasound or other testing)
- Any above the neck lesions/masses/cancers (not in the brain)
- Breasts
- Gallbladder
- Skin
- Thyroid requiring surgery

For more information, please call General Surgery Services at [\(510\) 985-5200](tel:5109855200).
