

# Neurosurgery

## at Berkeley Outpatient Center

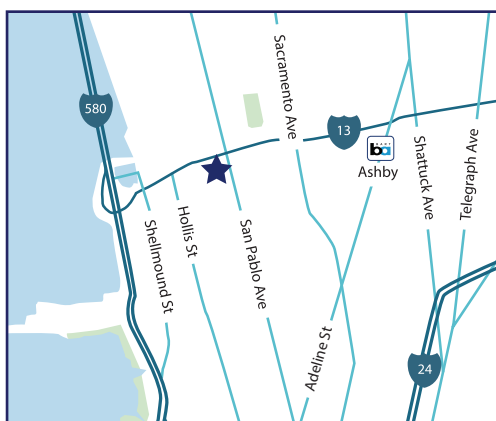

### Overview

Neurosurgery is one of several specialty services available at the Berkeley Outpatient Center. Our neurosurgeons work with referring providers to ensure patients receive the best care possible. Part of the UCSF Weill Institute for Neurosciences, Neurosurgery at UCSF Health offers a broad spectrum of services, from comprehensive evaluations and treatment planning to surgery and rehabilitation. Our patients also benefit from the new treatments and medical devices developed at UCSF.

### CONDITIONS TREATED

- Degenerative spine disease
- Osteoporotic and geriatric spinal pathology
- Revision spinal surgery to treat failed fusions or adjacent level pathology
- Spinal deformity (kyphosis/scoliosis)
- Spinal trauma
- Spinal tumors (primary and metastatic bone tumors as well as intradural tumors)

For more information, please call Neurosurgery Services at (510) 985-5200.

September 2020

#### Office location:

Berkeley Outpatient Center  
3100 San Pablo Avenue  
Berkeley, CA 94702  
(510) 985-5200
